Service Line Coverage is coming to Texas

Effective: 2/1/2022 for new and renewal business

Quotes available: 12/16/2021

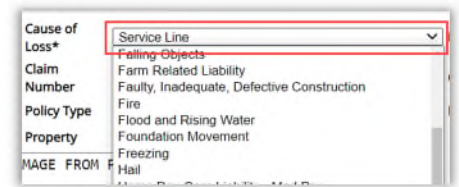

November 30, 2021

Dear Agency Partner,

Nationwide Private Client is pleased to let you know that Service Line coverage is coming to our homeowners clients in Texas next quarter. This new coverage will be included in new business home quotes and automatically included in qualifying homeowner policies at renewal effective on or after February 1, 2022.

Keep in mind

Previous service line losses will not be charged for merit rating if they are coded properly in our policy system. As C.L.U.E. does not have a separate claims code for service line losses, please change the cause of loss for any previous service line losses from “All Other Property Damage” to “Service Line” during home quoting. We’ll continue to keep you posted as this coverage becomes available in more states.¹

Tools and information

- [Service Line Coverage Corner](#)
- Updated [home quote job aid](#)
- Updated [Service Line Agent FAQ](#)
- [Service Line client flyer](#)
- Service Line policyholder notices: [Homes under 50 years old](#), [Homes 50 years old or more](#)

If you have any questions, please contact your Sales Manager. Thank you for your continued partnership.

Your Nationwide Private Client Team

¹Service Line is not currently planned for AK, FL, HI, or NY
