Policy System New User Process Enhancement

For: All Agents & Brokers

Effective: Immediately

March 24, 2020

Dear Agency Partner,

As you know, Private Client is continually working to improve your agency experience. We're pleased to announce that we've further simplified the way new agency employees get access to our policy system, Private Client Innovations (PCI).

Starting now, when a new agency employee needs access to PCI, they can visit our public website, nationwideprivateclient.com, hover over the Login menu in the upper right and select New Agent User ID. The link will take them to our New User ID Application DocuSign page where they simply agree to the use of electronic records and complete the required fields.

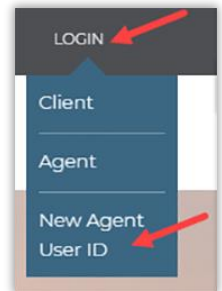

When the new agent clicks Finish, DocuSign automatically sends a copy of the application to the agent and our Sales Operations team. Personal information remains encrypted with this secure and efficient process. As before, the team will provide credentials within a few days.

If you have any questions, please contact your **Sales Manager** or our [Sales Operations team](#).

We thank you for your continued partnership and look forward to unlocking more opportunities.

Regards,

Your Nationwide Private Client Team
