

April 27, 2020

Dear Valued Clients,

To support you during the COVID-19 pandemic, Nationwide Private Client is offering a one-time premium credit of \$50 per policy for personal auto policies active as of March 31, 2020. We are offering this rapid relief at a time when many drivers are making the right choice to stay off the road and remain home to help “flatten the curve.”

The week of April 27 we will be processing premium credits for auto policies that have a current account balance. For accounts that are paid in full, we will be issuing refund checks to clients beginning the week of May 4.

If you have any questions, please contact your agent or the Private Client Solutions Center at 1-855-473-6410.

We wish you good health, and we thank you for trusting us to protect what matters most to you with extraordinary care.

Regards,

Your Nationwide Private Client Team
